

Warm Up America! 30th Anniversary Section Bundle Guide

49 Crochet 7" by 9" Section Patterns

About WUA! and our 30th anniversary:

[Warm Up America!](#) (WUA!) was founded in 1991 by a woman named Evie Rosen. Evie owned a yarn shop in Wisconsin and enjoyed making blankets for the homeless in her community. After finding that she couldn't fulfill the need fast enough, she came up with an idea. Evie's vision was to provide an innovative way for yarn enthusiasts to donate 7" by 9" sections, which others joined together to make finished blankets.

This seed of an idea has blossomed over the years into a national program that has provided comfort and warmth to thousands of people in need during their most difficult of times. Today, knitters and crocheters all over the country donate not only 7" by 9" sections, but also hats, scarves, blankets, baby clothing and more to help provide warmth to those in need.

In honor of Warm Up America's 30th anniversary, our goal is to encourage makers to donate \$30 or more to help us raise a total of \$90,000. Every volunteer who donates \$30 or more to WUA! will receive an exclusive 30th anniversary pattern bundle that includes 90 knit and crochet 7" by 9" section patterns.

About the patterns in the bundle:

The knit and crochet 7" by 9" section patterns in this bundle have been designed by many independent designers and knitters and crocheters, as well as yarn companies like Lion Brand and Yarnspirations. There are 90 patterns total - 49 crochet patterns and 41 knit patterns. The project levels of the patterns range from basic to complex and utilize a wide variety of stitches and techniques.

Credit/Thank you to the pattern writers:

Thank you to each and every knitter, crocheter, pattern writer and company that contributed patterns to this bundle as a generous donation to Warm Up America! We appreciate the time and effort it took them to create the beautiful patterns included in this bundle and we hope you enjoy making each of them!

WUA! Video:

To honor the legacy of our founder Evie Rosen, [we created a video that tells the story of Warm Up America!](#) The video showcases the journey of a 7" by 9" section, from the creation of the section to its trek to Warm Up America! to be processed and delivered to a maker who will join it into a completed blanket. We hope you enjoy the video and encourage you to share it with your community to spread the word about the great work we're doing at Warm Up America!
